

Smoke Detector and Carbon Monoxide Detector

Fire Extinguisher

Certificate Application

Age of House: _____ Years

PLEASE READ CAREFULLY AS OUR REQUIREMENTS HAVE CHANGED AS OF 1/1/2017

No Certificates shall be issued if there are any open Construction Permits

All inspections are required to be performed and a Certificate of Occupancy and/or Certificate of Approval is required to be issued. This shall be strictly enforced. These inspections shall be performed before the Smoke Detector Inspection is performed. Also, **you are required to have a street number affixed to the house** which should be a minimum height of 2 ½ inches and placed in a conspicuous location and plainly visible from 50 feet away. Any home built after 2017 shall require a 4 inch number.

Address: _____ Block _____ Lot _____

Present Owner: _____

Phone Number: _____

New Owner: _____

Real Estate Agency: _____ Phone Number _____

Date of New Occupancy: _____

Is there a usable garage on property? _____ If no, why not? _____

You are required to have a useable garage on the property. You must be able to drive an automobile into the garage.

*****For Hardwired/Wireless – smoke detectors must be certified letter/report from either an alarm company (if monitored) or an electrician stating the smoke detectors have been teste and are in working order & smoke heads are less than 10 years old. All battery powered detectors must be less than 10 years old. The battery must be a 10 year battery.**

You are required to have one (1) Smoke Detector on each level (including basement) and one (1) outside each of the sleeping area(s). No sleeping area(s) are permitted in basement or attic.

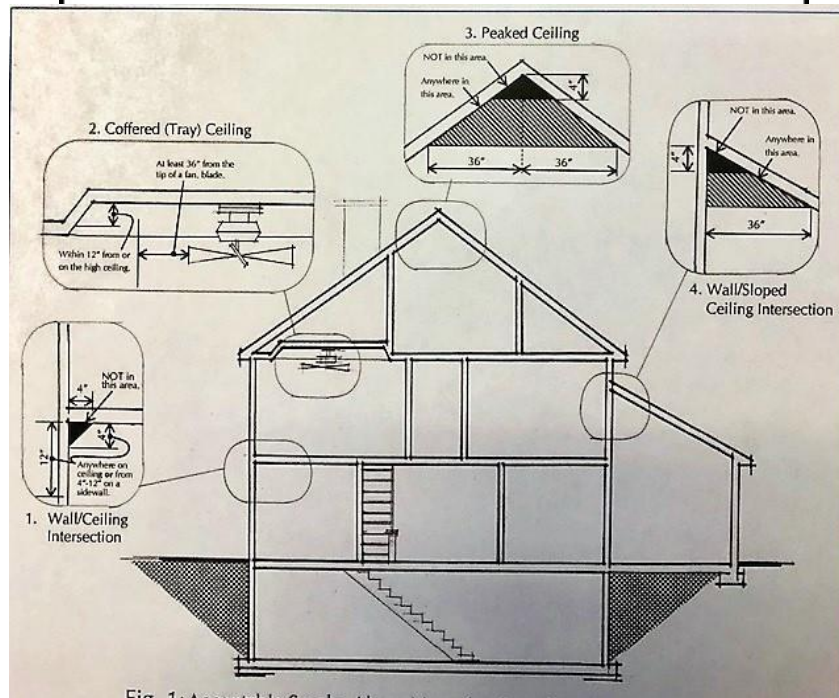

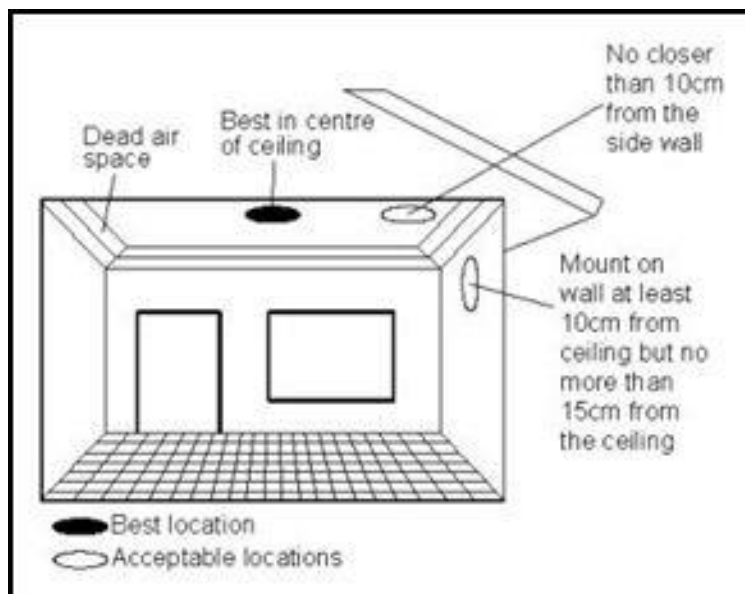

You are required to have at least one (1) hard-wired, plug-in and/or battery powered type of Carbon Monoxide Detector within the residence. The unit(s) shall be installed in accordance with the manufacturer’s instructions.

You are required to have a fire extinguisher installed. See reverse side of sheet for instructions:
