

RADIO CITY MUSIC HALL COVID-19 PROTOCOL

All Guests Age 12 And Older

- Guests age 12 and older are required to provide proof of COVID-19 vaccination
 - This means you've had at least one dose of a COVID-19 vaccine prior to attending
- Guests may also show proof of full COVID-19 vaccination
 - This means the day of your show is at least 14 days after your final vaccine dose, which, depending on the type of vaccine, may be one dose or two
- Fully vaccinated guests are not required to wear a mask. Everyone else will be required to wear a mask while in Radio City Music Hall, except while actively eating or drinking

Children Under Age 12

- Children under age 12 can attend with a vaccinated adult, but please note:
 - Children ages 5 to 11 will need to provide proof of a negative COVID-19 test (an antigen test taken within six hours of the show start time, or a PCR test taken within 72 hours of the day of the show)
 - Children ages 2 to 11 will need to wear a mask while inside the venue, except while actively eating or drinking

Proof of COVID-19 vaccination or negative test result needs to be directly from the healthcare provider that performed the vaccination or test, and can be displayed:

- On your smartphone
- Through a physical copy
- Using New York State Excelsior Pass (Android | iOS) or NYC COVID Safe App (Android | iOS). We ask that you download and log in to these apps in advance so you have access to your proof before arriving at the venue.

For all options, anyone 18 years or older will need to also present a government-issued ID such as driver's license or passport. Those younger than 18 may use a government-issued ID, birth certificate, social security card, school ID, or locally-issued ID.

Please note that government mandates, venue protocols and event requirements are subject to change, so be sure to continue to check back for the latest information.
