CHILDREN MUST BRING THEIR OWN TABLET, LAPTOP, iPad, etc

Description: Offered by former Elementary Principal and Business Education instructors, Loraine and Alicia Gammara. In this 10 week program, children will master the fundamentals of keyboarding, using a fun, individualized application. They will learn proper hand placement and navigation of the board through reach position techniques. Typing speed and accuracy skills will build as we progress through Part I, making school and homework assignments much easier! No more staring at the keyboard to find letters! Digital literacy promotes the ability to use tools and technology to work, learn and interact along with reinforcement of vocabulary, spelling, word recognition and research skills. Children will have the opportunity to continue in FALL and WINTER programs, with additional classes offered: Keyboarding II, Google Applications and Kids' Money Matters, where students are introduced to Financial Literacy!
